

Dorothy E. Leidner, Ph.D.

Ferguson Professor of Information Systems
Director of the Ph.D. program in Information Systems
Baylor University

Since 2005, Dr. Leidner has had a regular visiting professor appointment at the University of Mannheim, Germany where she teaches during the summers. She also serves as a visiting professor at the University of Lund, Sweden, where she travels twice a year to collaborate with Ph.D. students and faculty. She has also held academic positions at INSEAD (Fontainebleau, France) and TCU (Ft Worth, TX), and has held visiting appointments at ETH-Zurich, SMU (Dallas, TX), the University of Caen (France), Helsinki School of Economics (Finland), and ITESM (Monterrey).

Dorothy received her higher education at the University of Texas at Austin, completing her BA in the Plan II program in 1986, her MBA with a specialization in Management Information Systems in 1988, and her PhD in Information Systems in 1992.

As a researcher, Dorothy has over 50 refereed publications in such journals as *MIS Quarterly*, *Information Systems Research*, *Organization Science*, *Journal of Management Information Systems*, *Decision Sciences Journal*, *Journal of Strategic Information Systems*, and *MIS Quarterly Executive*, among others. Her research covers an array of topics and methods, with roughly equal attention to theory papers, empirical papers, and practitioner-oriented papers. According to scholar.google.com, there are more than 32,000 citations to her research.

She has 8 best paper awards including the *MIS Quarterly* Best Paper Award (1995), the Senior Scholar's Best Publication Award (2007), the *Journal of Strategic Information Systems* Best Paper Honorable Mention Award (2009 and 2010), the Stafford OS Society Award for Best Paper published in 2012, the *Decision Sciences Journal* Best Article Finalist (2008), the Academy of Management OCIS division best paper award (2000) and a best track paper (1993) from the HICCS conference.

Dorothy has held various editorial roles: co-Editor-in-Chief of *Data Base for Advances in IS*, associate editor and senior editor for *MIS Quarterly*, associate editor for *Decision Sciences Journal*, and senior editor for the *Journal of Strategic Information Systems*. She currently serves as Editor-in-Chief of *MIS Quarterly Executive* and Senior Editor for *Information Systems Research* and for the *Journal of the Association of Information Systems*. She was the co-chair for ICIS2015 in Ft Worth. She is currently serving as program co-chair for ECIS 2018 and track co-chair for HICSS. She has held various other conference roles, including: track co-chair (ECIS 2011; ICIS 2010), panel chair (ECIS 2001, AMCIS 2009), doctoral consortium co-chair (AMCIS 2004), MIS camp co-Chair (AMCIS 2002), doctoral consortium faculty (ECIS 1998, AMCIS 2005, ICIS 2007), and program co-chair (AMCIS 2010).

She directs the Ph.D. program in Information Systems at Baylor, a program she proposed in 2005 and that was approved in 2008. It was a milestone for the university, being the very first Ph.D. program offered by the Hankamer School of Business.
